Relevant work experience and how it relates to Toastmasters and your role as a District leader:

Except for Toastmasters service, I'm an entrepreneur, founder of Good Life English School. This is an innovative learning institute providing educational training courses to help people to get better jobs result in fluent English. I designed all the courses and recruit all the teachers and students by myself which means I have excellent skills to create an effective project for people in need.

What experience do you have in strategic planning?

As a PRM in 2021-2022, I personally established a team for many innovative national projects such as the 1st ever primo for the annual conference, the District PR training, and short video competition. These experiences are all about strategic planning because they all need lots of communication.

What experience do you have in the area of finance?

In junior high school, I got the accounting license, and I'm good at numbers. As an entrepreneur, all I have to deal with everyday is finance and numbers. I'm good in discussing numbers and excellent in money issues.

What experience do you have in developing procedures?

I love to create new things and projects. During the term i served as the PRM, i recruited a professional team to produce an primo video. We had a professional director and screen writer, but lots of rookies actors and actress. I'm new to this kind of project, but i used my passion and experience llearned in Toastmasters to develop the 1st ever movie-like primo. And it's very famous in the society.

What lessons did you learn from previous leadership positions?

What I learned the most is, the leader is not a BOSS, he's a servant and a supporter to all the members. When I served as the President in 2016, i had a big failure at the moment. However, I learned two things, that is delegation and team work. When I was the PRM, I realized I have the ability to organized the national events and help lots of clubs and members because i know how to lead great people in a good team. During the process I was charting new clubs, I start to understand how Toastmasters help the new. And it became my mission. A true leader in Toastmasters is a giver, a helper and a famer. That's also my motto as a loyal member.

Why do you want to serve as a District leader?

Toastmasters is not only an club or learning environment. As a member who love charter new clubs and help weaks clubs. It become an important life long social servive in my whole life. The main reason I'd love to be the Trio and future DD is i want to make Toastmasters great again. We are an very important community in Taiwan, and we can do more to the society, more people in need. i have confidence to let Toastmasters D67 become an icon in Taiwan, and let every member in this district proud of ourself.

In your opinion, what are the District mission's major objectives and how would you work to achieve them?

The district build new clubs and support all clubs in achieving excellence. That what i'm doing now for the society, I personally charter 5 differents clubs in this five years, most of them are still very active right now. I was a PRM, division director, and the club coach chair this term to serve all the clubs. i know how to help the clubs and members to achieve excellence and fullfilled their personal needs.

Additional information about yourself:

If i can serve as the Trio and the DD, I will not only an district officer, i will be a important companion for all the clubs, officers, and the members. Toastmasters is my home and my life. I'll treat it carefully and sincerely. I'll use all my spare times to achieve my goal.
